CURRENT POSITION

Southern Illinois University, Carbondale, IL, USA

Aug. 2025 - Present

Tenure-Track Assistant Professor, Computer Science, School of Computing

KEY ACCOLADE/ACCOMPLISHMENTS

- Published 19 high-impact conference and journal papers (i.e., **15 as the first author**) focusing on the security and dependability of Blockchain systems and intelligent control of unmanned aerial vehicles (UAVs).
- Made key contributions to the successful completion of one National Science Foundation (NSF) project, one National Security Agency (NSA) project, and one Department of Energy (DoE) project, demonstrating strong collaborative skills and technical expertise.
 - Received the NSF I-Corps scholarship, securing a \$50,000 financial and travel grant, and completed the training program as an Entrepreneurial Lead, conducting 105 customer interviews.
- Received multiple awards, including **Outstanding Graduate Scholar of the Year** at FIU for research contributions (2023-24), Second Place in Engineering at the FIU Graduate School Scholarly Forum 2023, IEEE Upsilon Pi Epsilon (UPE) Honor Society Scholarship 2024, and the NSF Student Travel Grant acknowledging academic excellence and research potential.

RESEARCH INTERESTS

- Blockchain security, with a focus on vulnerabilities in decentralized off-chain Layer 2 (L2) systems and mitigation.
- Artificial intelligence (AI)-based autonomous systems, particularly utilizing Reinforcement Learning (RL) for UAVs.
- Machine learning, data-driven security solutions, and threat detection techniques for the cybersecurity of cyber-physical system (CPSs).

FUNDED RESEARCH PROJECTS

Artificial Intelligence-Enabled Tools (ArtIT) for Cyber Hardening of Power Grids

Oct. 2022 – Dec. 2023

- Funding organization: Department of Energy (DOE)
- Award ID: DE-CR0000024
- Role: Graduate student contributor
- Collaborated with the principal investigator (PI) on project design, data analysis, tool development, evaluation, validation, and quarterly reporting to support DOE goals for improving power grid resilience.

I-Corps: Smart Healthcare System Threat Analyzer

Jul. 2021 – Jan. 2022

- Funding organization: National Science Foundation (NSF)
- Award ID: CNS 2138301
- Role: Graduate student contributor
- Conducted 105 customer discovery interviews as an **Entrepreneurial Lead** to explore the product ecosystem for our smart healthcare security research product.

EDUCATION

Florida International University (FIU), Miami, FL, USA

Aug. 2020 - Aug. 2025

M.S. leading to Ph.D. in Electrical and Computer Engineering

FIU, Miami, FL, USA

Aug. 2020 - Jul. 2024

M.S. in Computer Engineering

Khulna University of Engineering and Technology (KUET), Khulna, Bangladesh

Apr. 2014 - Mar. 2018

B.Sc. in Computer Science and Engineering

POSTERS/ABSTRACTS

- Represented FIU at the Academy of Science, Engineering, and Medicine of Florida (ASEMFL) by presenting poster titled “State-root manipulation attack in optimistic rollup through updating the remote procedure call (RPC) address” at the Annual Meeting 2024.
- Presented a poster titled “SHiP: Securing Hashed Timelock Contracts in Payment Channel Networks” at the 2023 IEEE Conference on Communications and Network Security (CNS 2023).
- Presented a poster titled “Data-driven ANFIS-based IDS for UAV” at the FIU UGS Scholarly Forum 2023.

HONORS AND AWARDS

- Awarded the **Outstanding Graduate Scholar of the Year** by Outstanding Student Life Awards organized by the Division of Academic & Student Affairs at FIU for research contributions in the academic year 2023-24.
- Awarded FIU University Graduate School (UGS) **Dissertation Year Fellowship** for Spring and Summer 2025.
- Awarded **NSF Student Travel Grant** for the 2023 IEEE CNS, acknowledging academic excellence and research potential in secured communications and networking (Award #2331646).
- Awarded the Upsilon Pi Epsilon (UPE) Honor Society Scholarship 2024 from the Computing Sciences and the IEEE Computer Society (the largest association of computer professionals).
- Honored with **Second Place (among 81 posters)** in the Engineering category for the poster titled “Data-driven ANFIS-based IDS for UAV” at the FIU GSAW Scholarly Forum 2023.
- Completed the Fall 2021 **NSF I-Corps cohort as Entrepreneurial Lead** of team 2426, funded by National Science Foundation (NSF) under award #2138301. (Credential).
- Inducted by the Honor Society of **Phi Kappa Phi** by the election of the chapter at FIU for outstanding academic achievements in the academic year 2020-2021.
- Deans List award of the Faculty of EEE for Excellent Academic Performance in the 2016-17 and 2015-16 sessions.
- Awarded a general scholarship for outstanding performance in the Secondary School Certificate Examination during the 2010-11 academic year, as well as for exceptional results in the Higher Secondary School Certificate Examination in the 2012-13 academic year.

WORK EXPERIENCE

Analytics for Cyber Defense (ACyD) Laboratory, FIU, Miami, FL, USA Aug. 2020 - Jul. 2025
Graduate Assistant, Department of Electrical and Computer Engineering

- Collaborated and made substantive contributions to 1 NSF project, 1 NSA project, and 1 DOE project.
- Articulated defense mechanisms against cyber attacks on off-chain L2 solutions for **Blockchain**.
- Designed intelligent navigation for military drones/UAVs in hostile territory using reinforcement learning.
- Articulated deep learning-based energy harvesting models for IoT devices using cell-free massive MIMOs, and intelligent reflecting surfaces.
- Mentored 7 undergraduate and graduate researchers supported by NSF/NSA/DOE projects.

MazeGeek Technologies BD Ltd., Dhaka, Bangladesh Aug 2018 - Jul. 2019
Software Developer

- Developed and launched 5 Android applications that collectively achieved over 1,000 downloads, enhancing user engagement by 15% within the first six months of release.
- Designed robust project architectures that streamlined application functionality, resulting in a 10% reduction in development time and improved performance.
- Managed client requirements and documentation, ensuring 100% adherence to project specifications and timelines.
- Participated in key client meetings, fostering relationships and securing 2 new contracts through effective communication and project presentations.

Daffodil International University (DIU), Dhaka, Bangladesh May 2018 - Jun. 2018
Lecturer, Department of Computer Science and Engineering

- Conducted classes and lab sessions for over 60 students in Artificial Intelligence (CSE 412 & 413), achieving a 90% student satisfaction rating through engaging instructional methods.
- Implemented hands-on projects that improved student proficiency in GUI development, resulting in 80% of students completing practical assignments on time.

SERVICES

Conference Chair/Committee Member

- Served as a member of the **Scientific Program Committee** for the 12th IEEE Swiss Conference on Data Science (SDS 2025), taking place on June 26-27, 2025, in Zürich, Switzerland.
- Served as a member of the **Technical Program Committee** for the Special Session on Multi-modal Machine Learning (MAPLE) at International Conference on Machine Learning and Applications (ICMLA 2025).

Invited Talks

- Got invited for a seminar talk on **Cybersecurity and Blockchain** for the Department of Computer Science Seminar Series at Missouri State University, to be held in November 2025.

TEACHING EXPERIENCE

Assistant Professor, Southern Illinois University Carbondale Aug. 2025 - Present

- Digital Forensics with Graduate and Undergraduate Sections (CS 413/513)

Instructor, Florida International University May. 2024 - Dec. 2024

- Network Protocols for Internet of Things (CNT 4165)
 - Study of network protocols specifically tailored for IoT devices and systems.
 - Covered foundational networking concepts before diving into protocols used in IoT environments, such as MQTT, CoAP, and IPv6. Lab-based learning where students configured and tested IoT devices.

Graduate Teaching Assistant, Florida International University Aug. 2020 - Apr. 2024

- Senior Design Projects (EEL 4920)
 - A capstone experience for senior students, challenging them to apply their academic knowledge to real-world projects.
 - Served as a **mentor for over 100 projects**, guiding students through project planning, design, and implementation phases.
- Digital Forensics (EEL 4802)
 - Exploration of techniques and tools used in digital forensics for the investigation of cyber crimes.
 - Emphasized hands-on labs where students worked on forensic analysis of different digital mediums. Included case studies of real cybercrimes to understand better how forensics is applied.

Lecturer, Daffodil International University May 2018 - Jun. 2018

- Artificial Intelligence (CSE 412 & 413)
 - Comprehensive introduction to artificial intelligence concepts and techniques. Topics included machine learning, natural language processing, robotics, and intelligent agents.
 - Lectures combined with interactive lab sessions to give students hands-on experience. Emphasis on practical applications in AI, encouraging students to solve real-world problems using AI methodologies.

PEER-REVIEW ACTIVITIES

Journals

- IEEE Transactions on Information Forensics and Security (TIFS) (impact factor: 6.3)
- IEEE Transactions on Industrial Informatics (TII) (impact factor: 12.3)
- IEEE Internet of Things Journal (IoT-J) (impact factor: 10.2)
- IEEE Transactions on Big Data (TBD) (impact factor: 7.5)
- IEEE Transactions on Wireless Communications (TWC) (impact factor: 8.9)

- IEEE Transactions on Vehicular Technology (TVT) (*impact factor*: 6.8)
- ELSEVIER Computers & Security (*impact factor*: 4.8)

Conferences

- IEEE International Conference on Communication (ICC)
- Blockchain Research & Applications for Innovative Networks and Services (BRAINS)
- IEEE Wireless Communications and Networking Conference (WCNC)
- Applied Cryptography and Network Security (ACNC)
- International Conference on Network and Service Management (CNSM)
- IEEE SmartGridComm
- IEEE International Conference on Metaverse Computing, Networking and Applications (MetaCom)
- IEEE International Conference on Digital Health (ICDH).

PROFESSIONAL CERTIFICATIONS

- Completed and obtained Microsoft: Security, Compliance, and Identity Fundamentals Certification (**SC-900 Credential**).
- Completed and obtained Microsoft: Azure Fundamentals Certification (**AZ-900 Credential**).
- Completed and obtained Microsoft: Azure Artificial Intelligence Fundamentals Certification (**AI-900 Credential**).

LEADERSHIP AND VOLUNTARY ACTIVITIES

Leadership Roles

- Elected **Secretary** of BSO (an official FIU student organization). Aug. 2023 - Jul. 2024
- Elected **Registered Student Organizations** of **FIU IEEE E-board**. Aug. 2022 - Jul. 2023
- Elected **Registered Student Organizations** of BSO. Aug. 2022 - Jul. 2023
- Chief Technical Coordinator of **IEEE KUET Student Branch**. June 2017 - Feb. 2018
- Former trainer of the software/web application development club **BitToByte**. June 2016 - Apr. 2017
- Former trainer at Bangladesh physics olympiad.

Conference Volunteering

- 2023 IEEE/IFIP Network Operations and Management Symposium (NOMS).
- 2017 3rd International Conference on Electrical Information and Communication Technology (EICT).
